

# STROLLER HINGE REPAIR INSTRUCTIONS

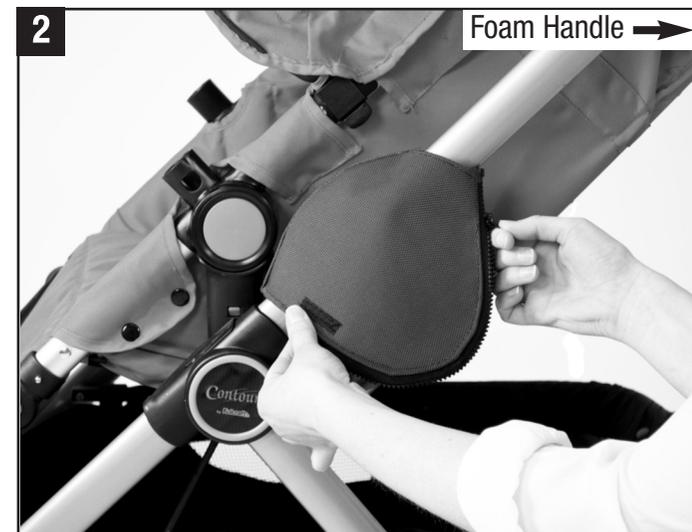

**WARNING:** Failure to install this stroller hinge repair kit could result in fingertip amputation or laceration.

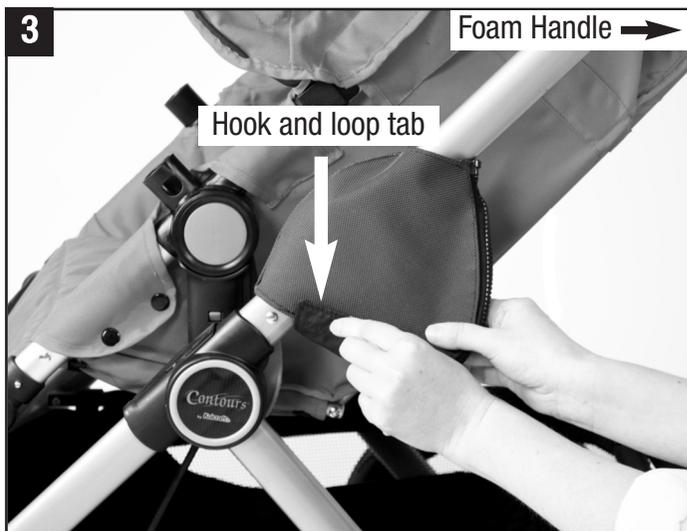

Your kit consists of two side lock hinge covers and instructions.

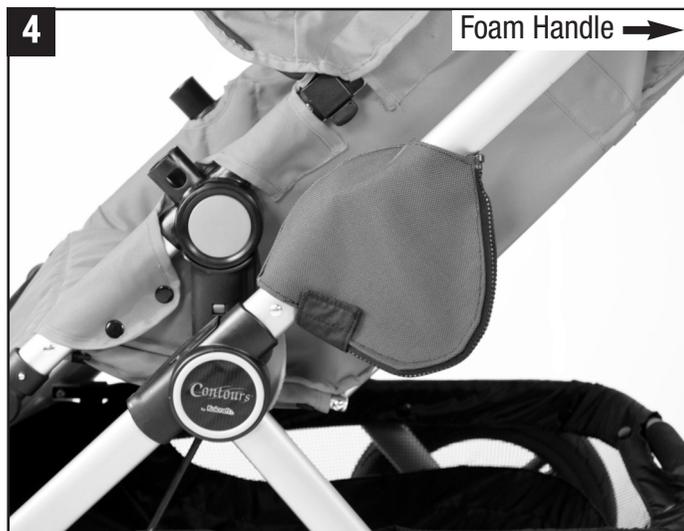

**STEP 1** - Place the unzipped side-lock hinge cover over the stroller's side lock as shown in photo above, with the base of the zipper toward the stroller foam handle.

**STEP 2** - Using the zipper, zip the hinge cover closed around the side lock as shown in photo above.

**STEP 3** - Cover and secure the zipper pull, using the hook and loop tab. See photo above. Your side-lock hinge cover is now fully installed.

**STEP 4** - Complete hinge cover on stroller.

**STEP 5** - Repeat Steps 1 - 4 for side lock on the other side of the stroller.

**NOTE** - This cover was designed to allow the stroller to open and close with the cover installed.
